## "AGE OF

The year 1970 was officially named the "Age of Aquarius" by young people all across the United States. In this age of new ideas, there is also renewed interest in astrology, one of the oldest arts known to man.

It is a proven fact that stars affect the weather; can they also govern our lives? While collecting pictures for the 1969-70 annual, the staff has acquired pictorial evidence that, in SHS, there are a few instances where, perhaps the zodiac has influenced the student body.

The air, or mental, signs hold a prominent place in life at SHS.

TOP, Like a true Gemini, Mrs. Mary Whittington demonstrates her ability as the communicator of the zodiac.

ABOVE, When the teacher is out of the room, we can recognize ingenuity for figuring out ways of transmitting messages in every class.

RIGHT, Clifford Kitten exemplifies the love of cultural pleasures at SHS as he plays the piano.

## AQUARIUS'' AT SHS

LEFT, Pausing for a moment of deep meditation, Joyce Heinrich represents the sign of Aquarius. BELOW, After lunch, students gather in their own cliques to discuss the events of the day.

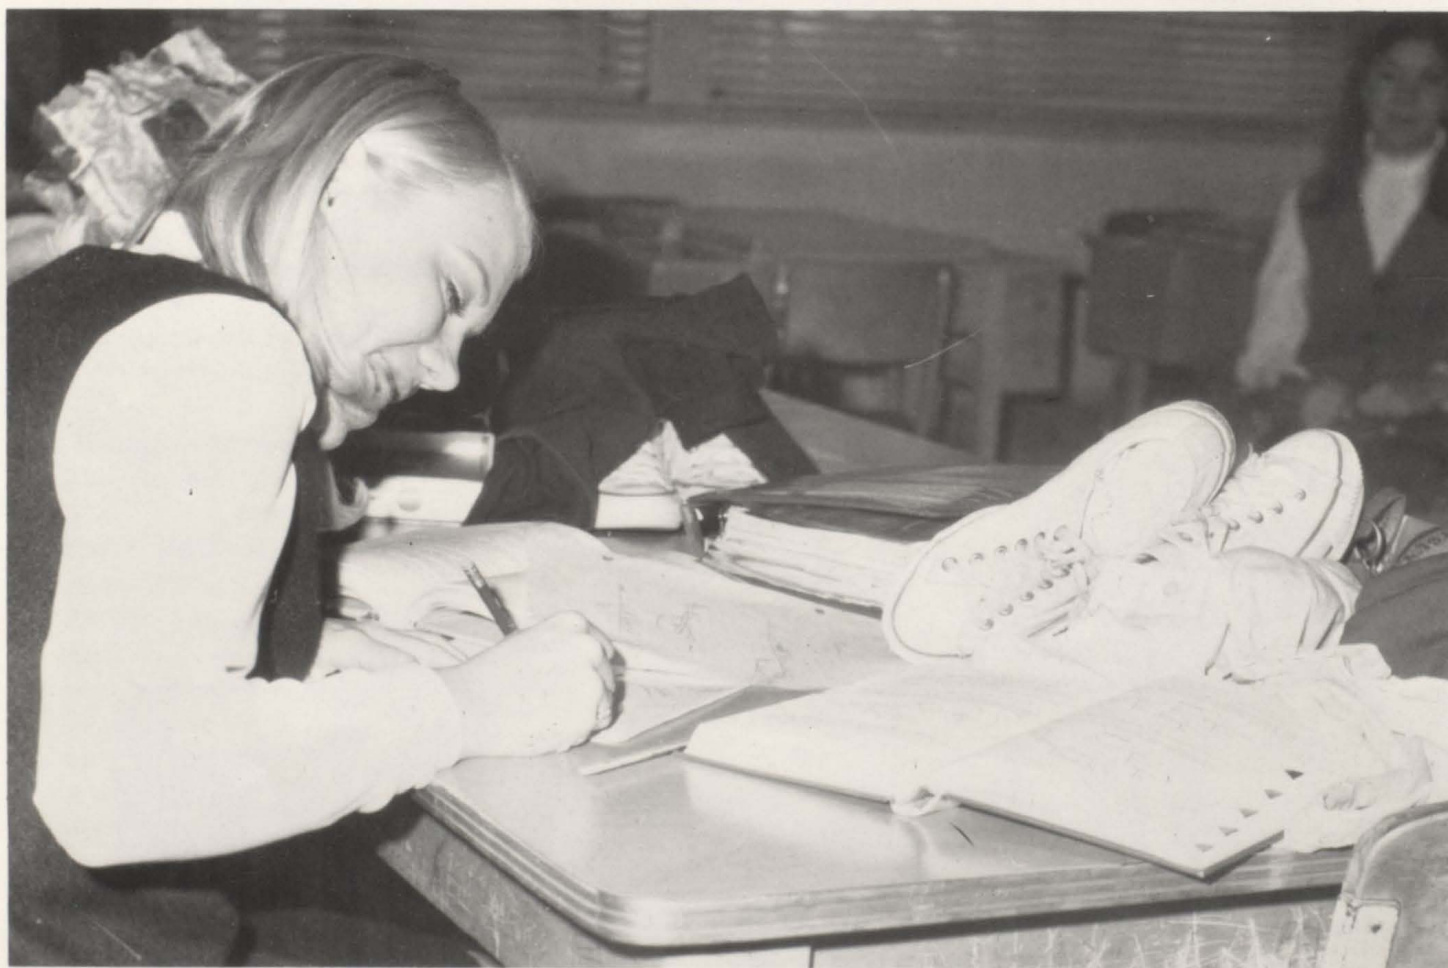

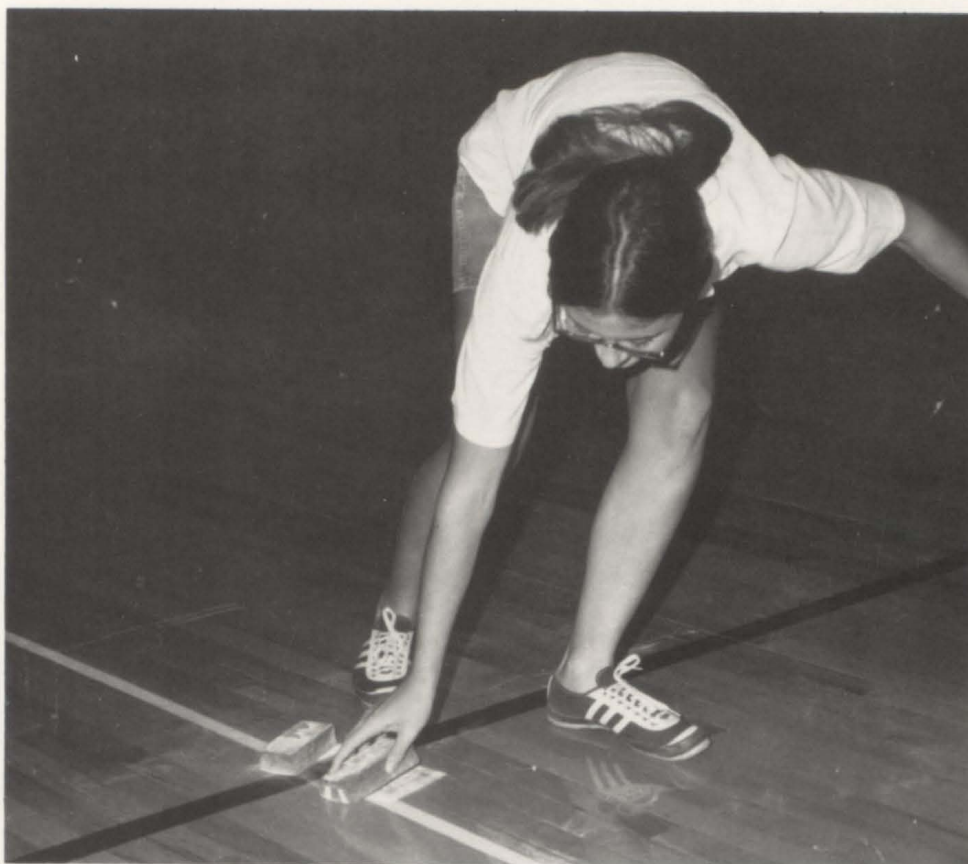

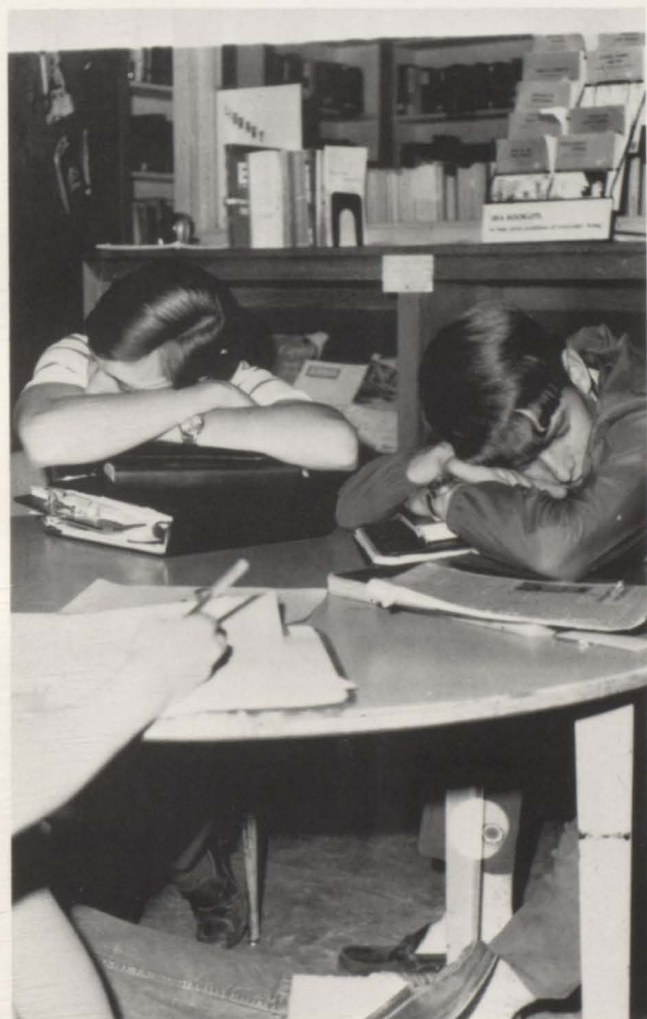

## EARTH SIGNS GOVERN PRACTICAL STUDENTS

Earth signs, Taurus, Virgo, and Capricorn, represent the practical side of the SHS student body.

RIGHT, During Physical Fitness tests, SHS freshman Cathy Rinee demonstrates her powers of endurance. These tests were given in the fall and spring semesters to the entire student body.

BELOW, Debra Greenfield shows the varied interests of students. Although basketball may still be on her mind, she has to take time out for English III homework.

## PRACTICALITY IS PERSONIFIED

TOP, Jesse Flores isn't concerned with thrift as is evidenced by his financial status. Could someone please give Jesse a small loan to buy a Pepsi?

ABOVE, The practical side of the SHS coaches is shown in this picture of Coach Davis explaining football plays to the rest of the staff.

LEFT, Seniors Jack Webb and Tony Privett take time out for rest and relaxation after looking for research materials.

# CONTAGIOUS ENTHUSIASM

Aries, Leo, and Sagittarius are fire signs which denote enthusiasm. These signs have a definite place in any school life, but in SHS these signs form a contagious enthusiasm. 🐾

TOP, Following a mailman-like slogan (We march in rain, sleet, snow, or dust!) the Tiger Band twirlers pose for a picture on a rainy morning.

ABOVE, The exuberance of FFA members may have overwhelmed initiates.

RIGHT, Enthusiasm of the fans often boosted morale of the Tigers.

# INVADES SHS

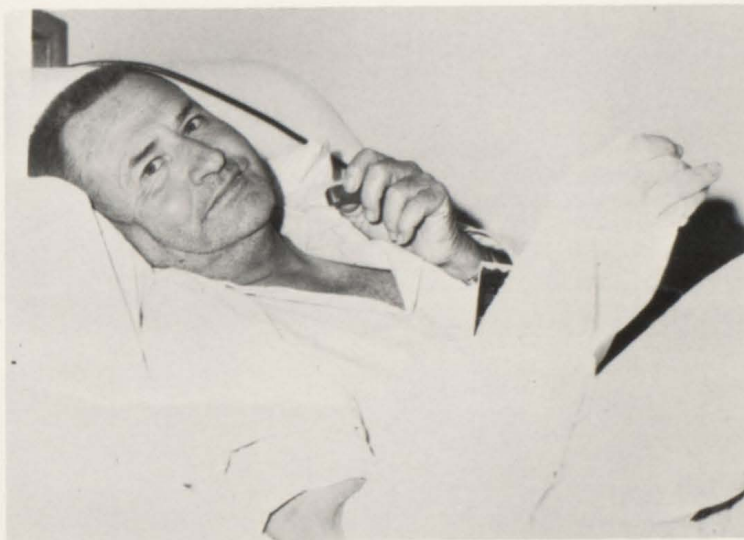

"Extracurricular activities" provide an outlet for enthusiasm and energy after school hours.

LEFT, Mrs. Maxine Walker, English IV teacher, takes time out to examine evidence of enthusiastic distaste for an English test.

BELOW, One afternoon when Coach Mize was running down the hall in his cleats, he fell and broke his arm. Students mailed him many cards and he had a continuous stream of visitors.

BELOW, Students responded to efforts to collect money for the "Dan Davis Fund" by having activities such as this senior basketball game, complete with "cheerleaders."

# WATER SIGNS GOVERN VARIED EMOTIONS

## PRIDE

The Water signs, Cancer, Scorpio, and Pisces, govern the varied emotions of the student body. Pride is the major emotion felt in SHS - pride in every phase of school activities.

RIGHT, Toni Melcher, FHA president, exhibited pride in her organization when she served Superintendent McClesky at an FHA tea.

BELOW RIGHT, Tomi Longton felt a surge of pride when she won first place in the Voice of Democracy contest.

BELOW LEFT, Coach Kerr uses his posture to define his favorite word - PRIDE.

## STUDENT BODY DEMONSTRATES AFFECTION

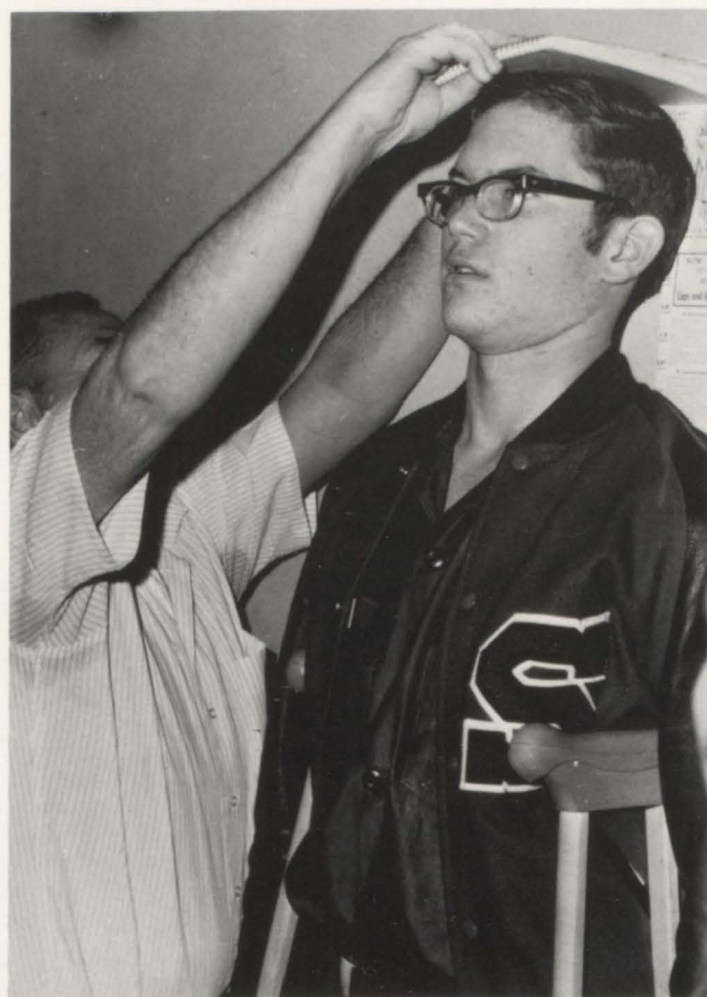

Water signs also govern our affections - love for that favorite girl, respect for a favorite teacher, and maybe those little kindnesses done for our fellow students.

ABOVE LEFT, Don Smith gives Georgia Geer a pat on the shoulder to tell her he understands just what the excitement of homecoming nominations can do to a girl.

ABOVE RIGHT, Clifford Summar and Gaines Teague convey their appreciation and respect for that favorite teacher, Mrs. Velma Figley. LEFT, Allen McDonald and Darlene Hlavaty are a well-known "couple" around the halls of SHS.

## SENIORS EXPERIENCE MIXED EMOTIONS

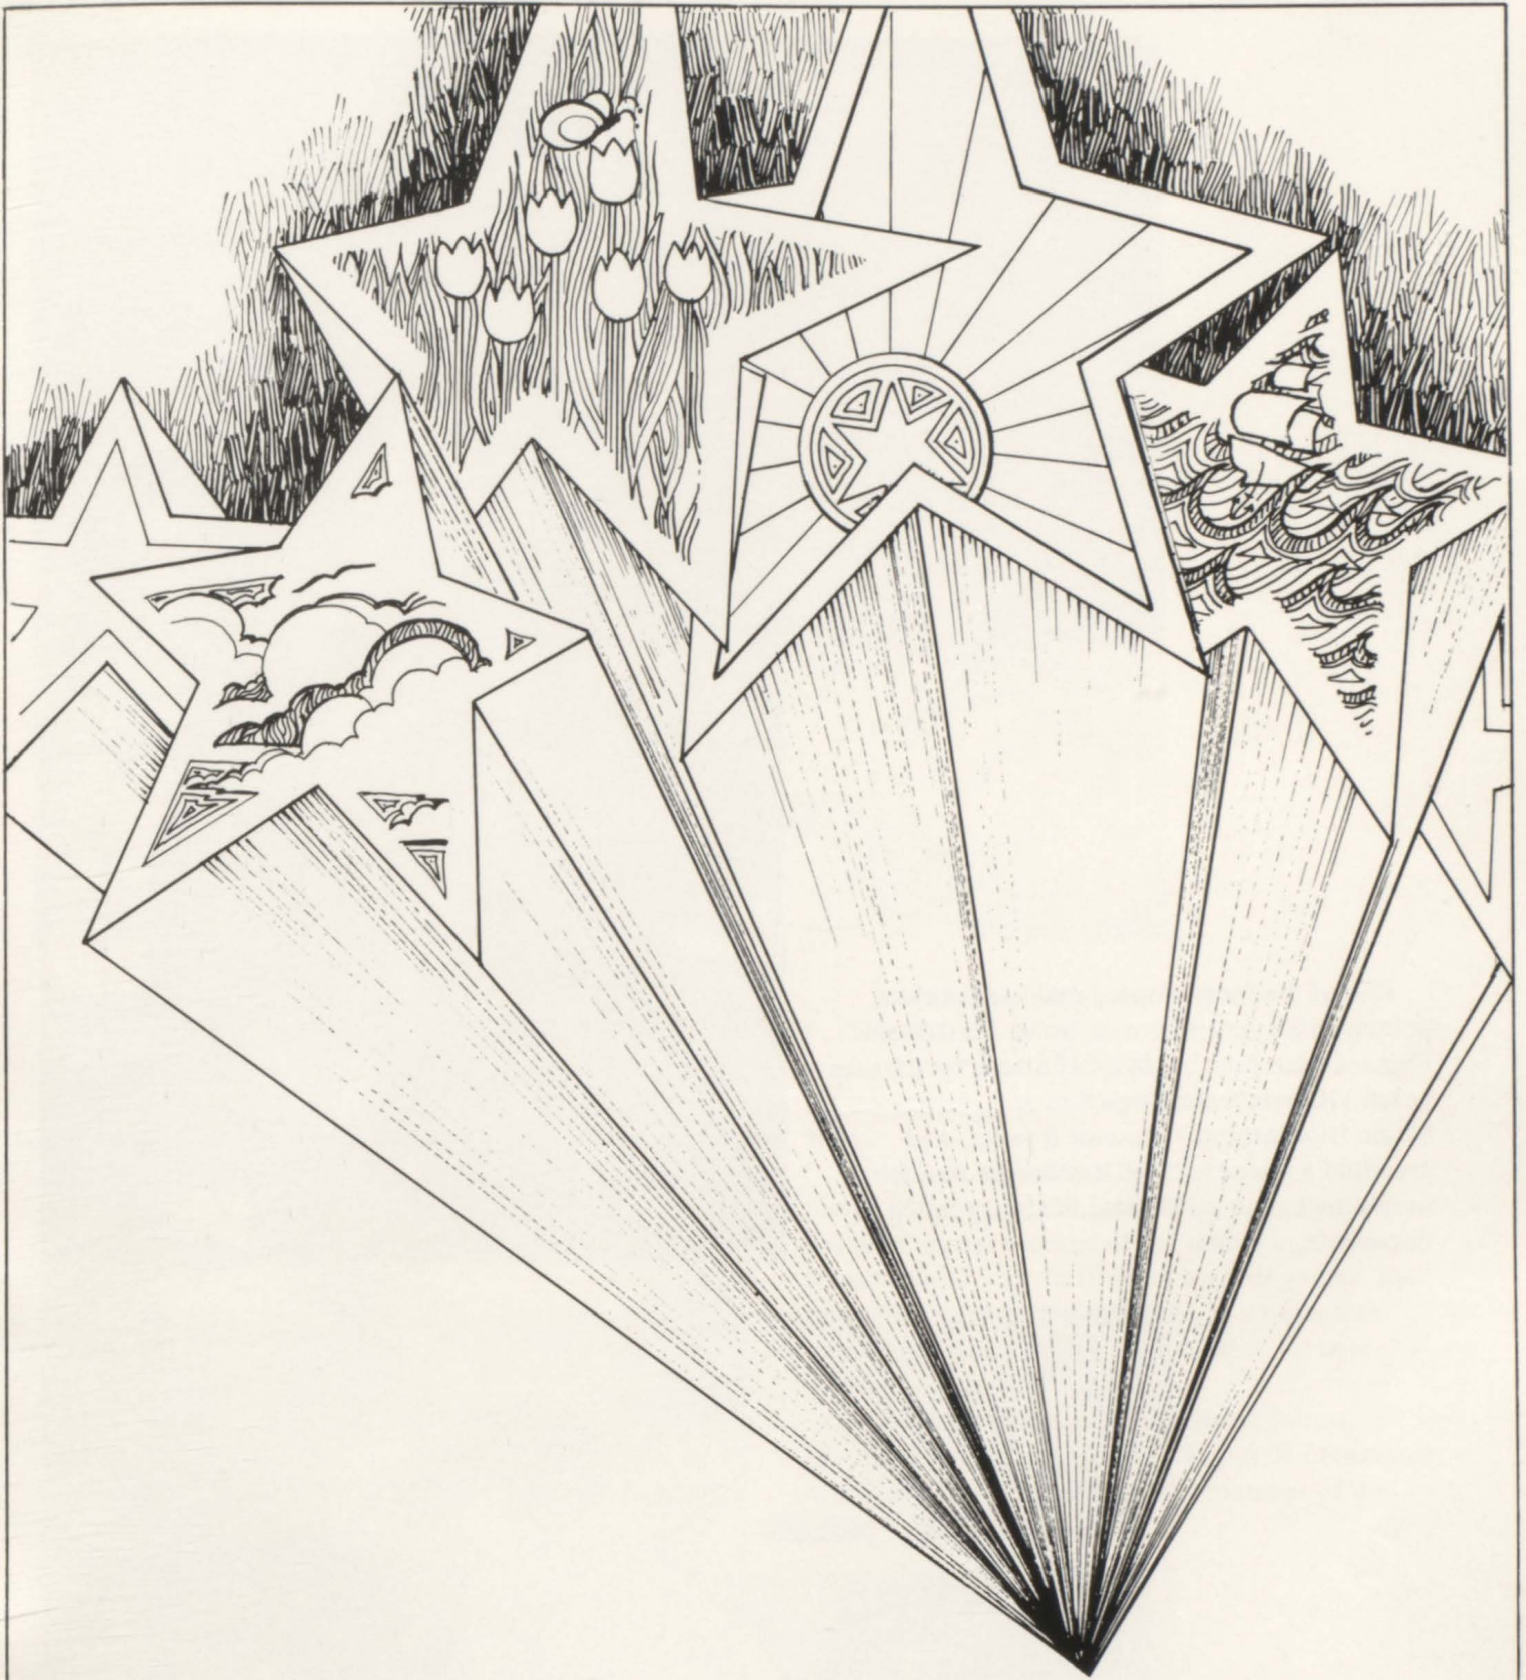

A once-in-a-lifetime emotion was experienced by the 1970 Senior Class. What's it like to be a Senior? There are memories, a first day in a bewildering high school, a rainy football game we just had to see, a hilarious class prophecy, and there are glimpses into a future life as a college student, a traveling salesman, a farmer, or a homemaker. As we leave the halls of SHS one last time, there is a feeling of joy, but isn't there also a touch of sadness?

ABOVE LEFT, Seniors worked diligently on their Western Day float. Can we detect a bit of exasperation when the six flags won't turn over Texas?

ABOVE RIGHT, Coach Mize has a little trouble finding out what size gown to order for Clifford Summar.

RIGHT, Nancy Basinger gets a laugh out of cap measurements.

# ADMINISTRATION

One of the most devoted and hard working persons in Slaton High must be M. W. "Coach" Kerr. Coach Kerr has been at Slaton for 17 years. He was Junior High Coach 6 years, Slaton High Athletic Director 3 years, and principal 8 years. Coach has done a fine job in improving our school and is always trying to improve it.

We at Slaton High are very happy to have J. C. McClesky as our new superintendent. A graduate of Texas A&M (1944), McClesky earned his master's degree at Midwestern University in 1954.

He and his wife, Aline, have three children. Betty, 22, Phyllis, 21, and Billy, 11. McClesky has been superintendent of the school at Shamrock for nine years and Chillicothe for four years. He started his career at Chillicothe as a classroom teacher and was high school principal for seven years.

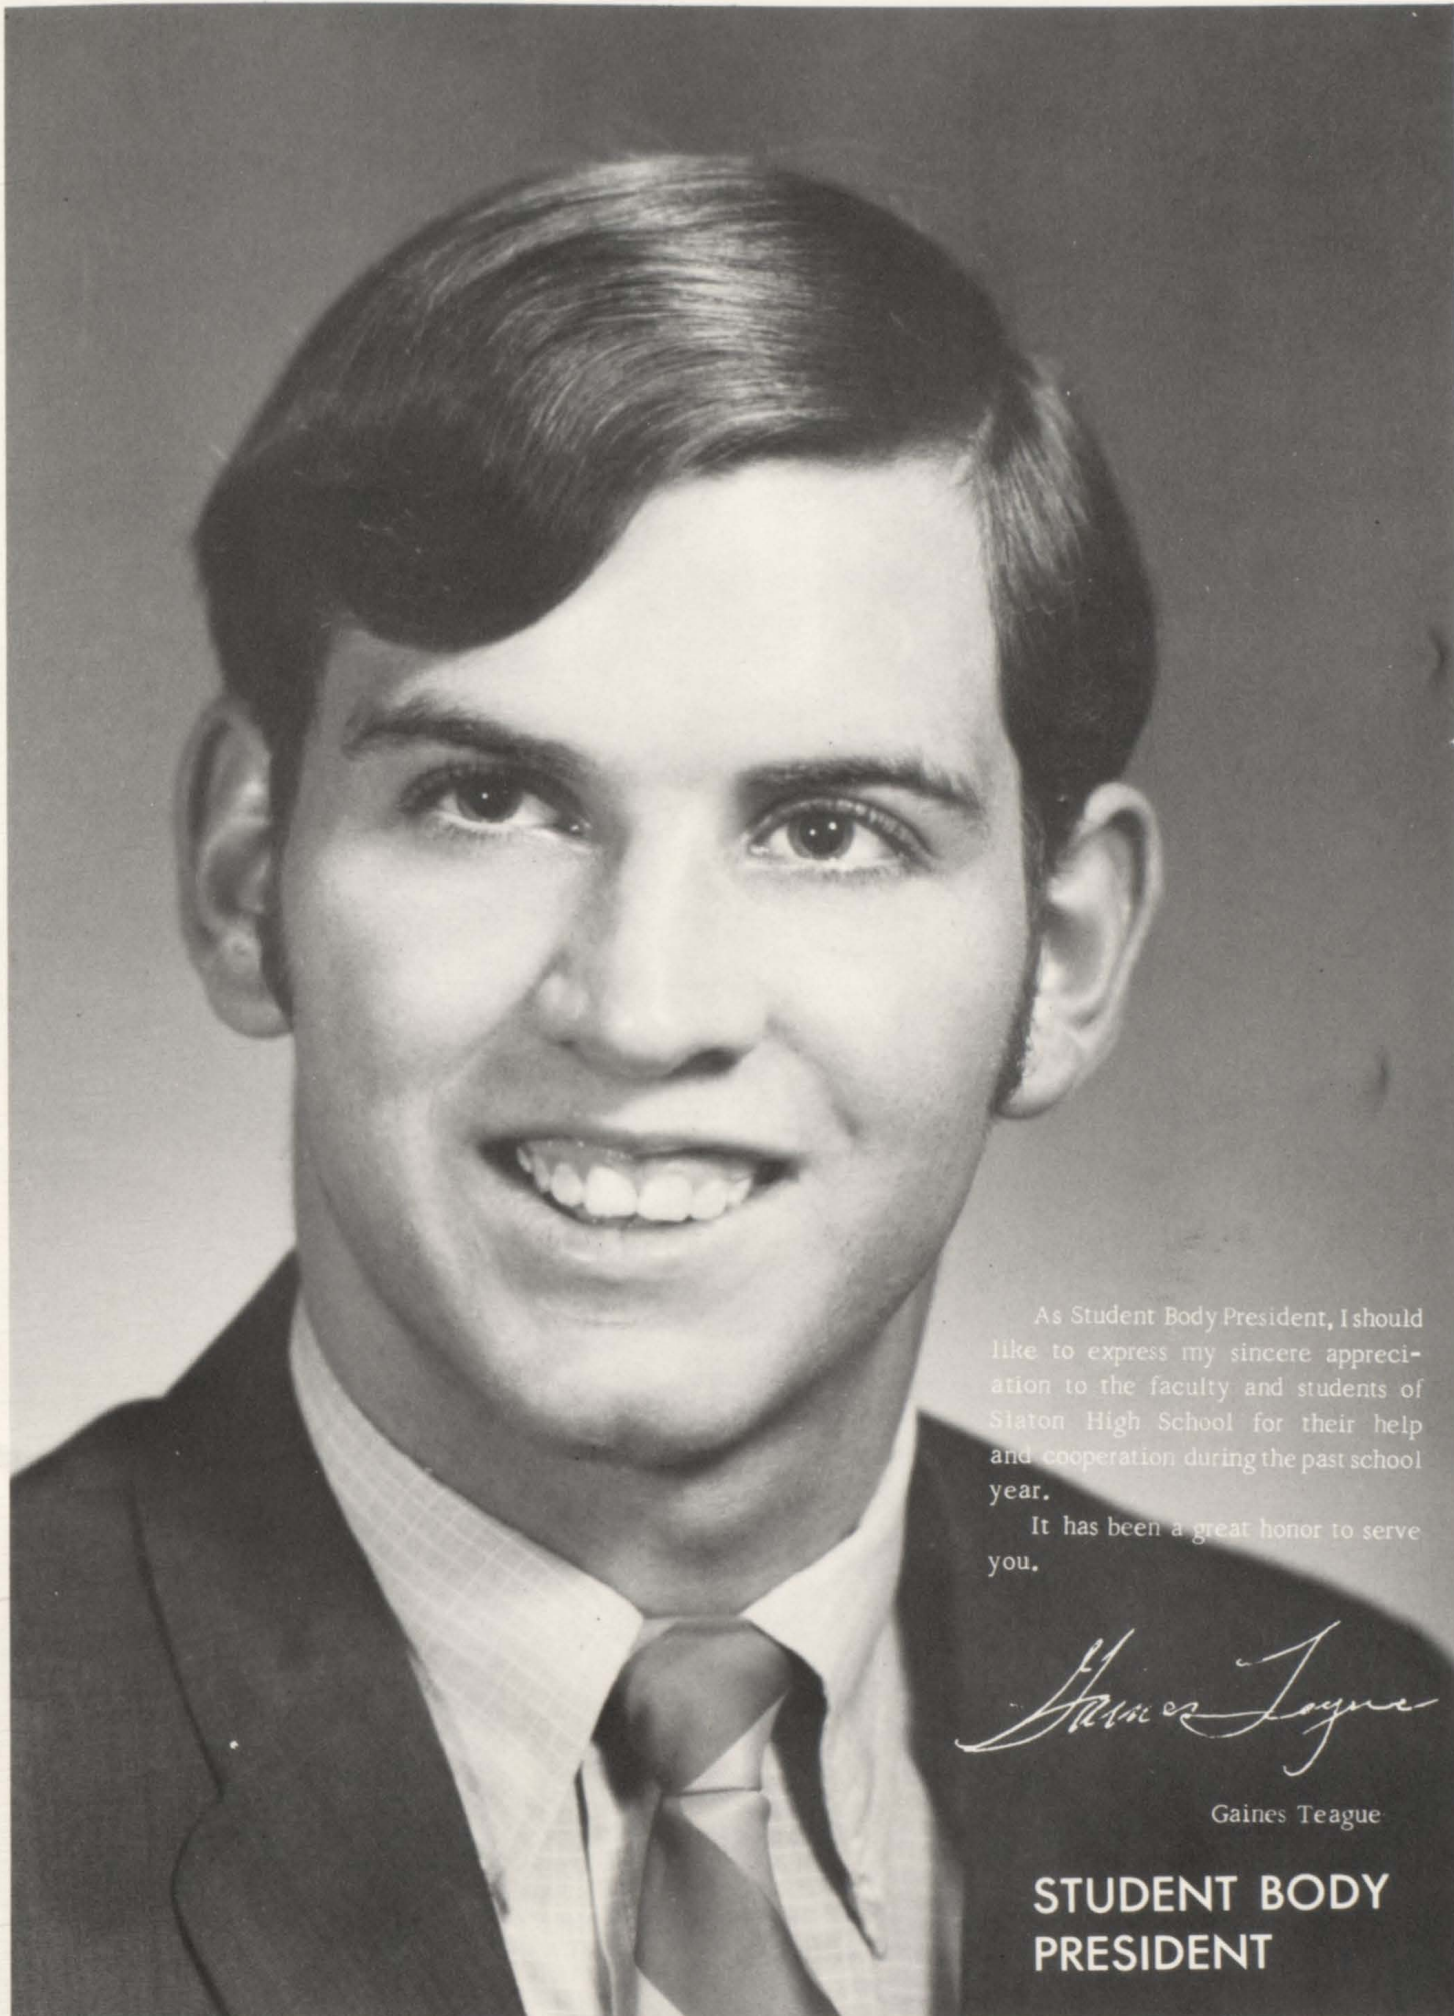

Leading an active civic life in Slaton, McClesky is director of the Chamber of Commerce, a member of Lion's club, and a member of the Rotary club.

# GRADUATION CONCLUDES TWELVE YEARS OF WORK

Graduation was a special event for the 1970 Senior Class, a time of joy and sadness, laughter and tears, class trips and practice sessions, looking ahead and glancing back to fond memories - a conclusion of twelve years of study, fun, and friendship.

Baccalaureate and graduation was filled with emotion. Rev. Summar expressed the sadness felt by parents when they "remembered the first day of school in 1957," just as Mr. McClesky voiced the pride felt by everyone connected with the graduation in the accomplishments of the class. When students turned in their caps and gowns, wasn't there just a trace of relief? Mixed emotions were evident on the faces of seniors, but when the "Class of '70" held diplomas in their hands, there was a sense of expectancy in each heart - the realization that each graduate must carve success out of his own life.

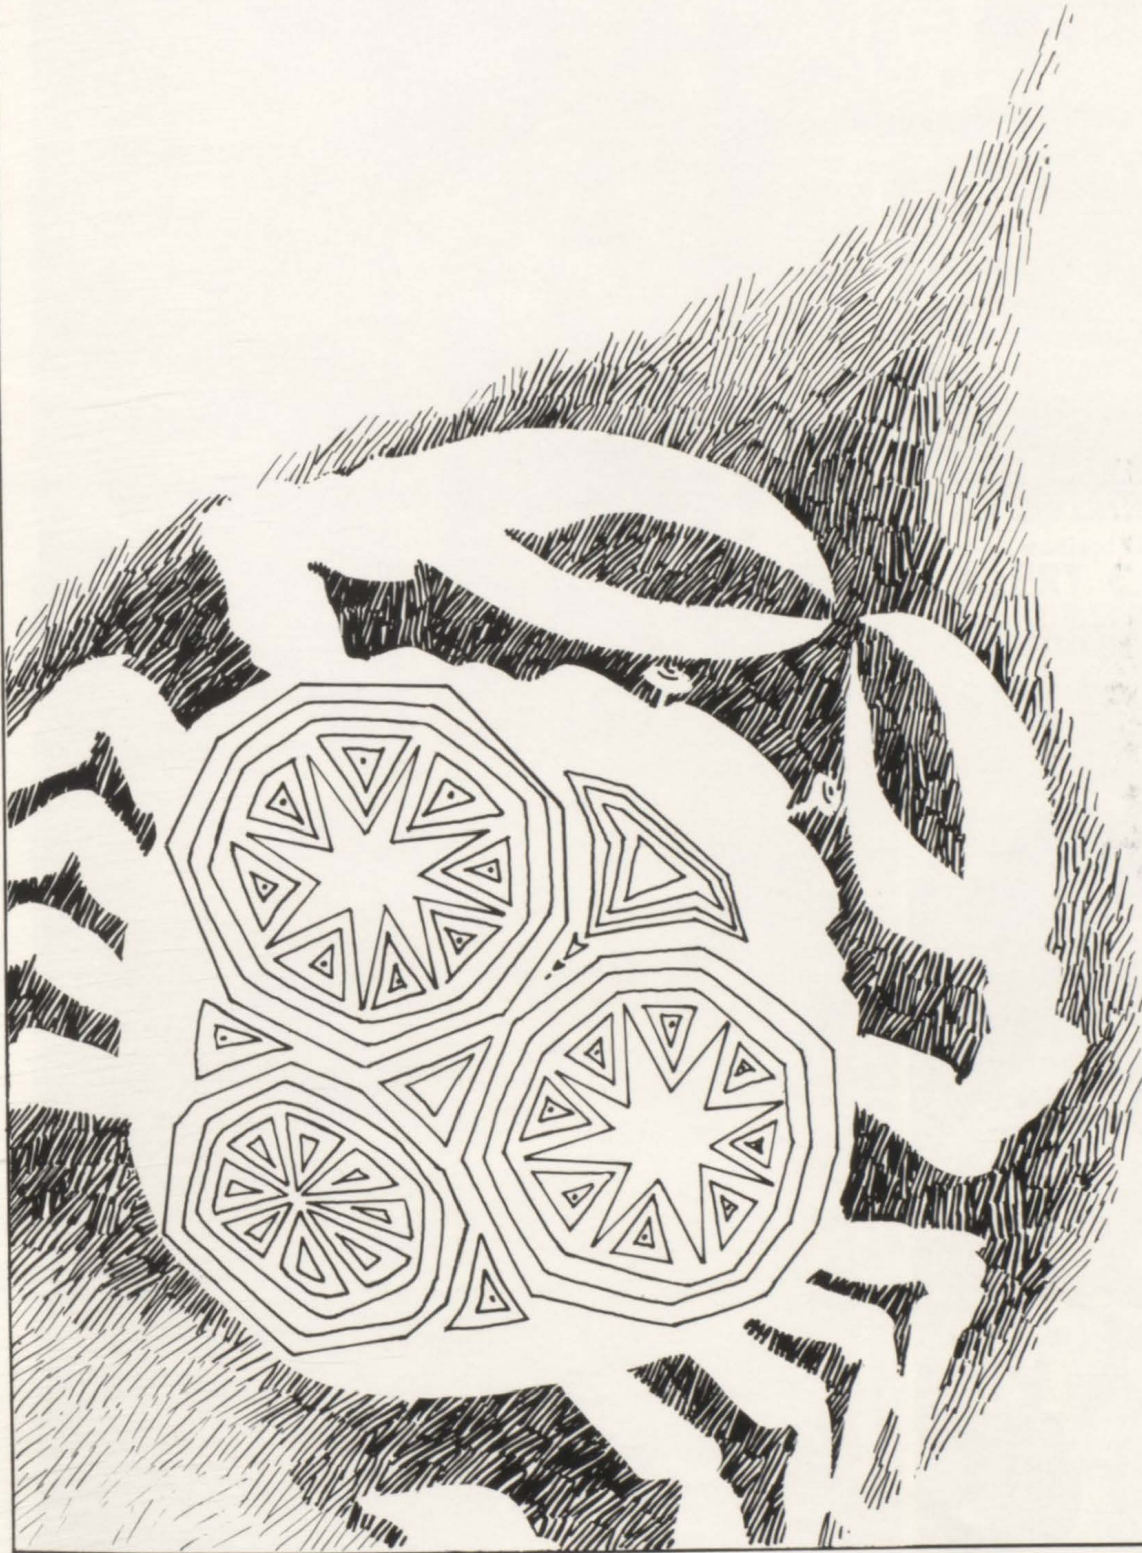

# SENIORS ENJOY FREEDOM

Seniors enjoy "Senior Days" immensely. Their activities this year were: swimming, miniature golf, and eating out. And the most spectacular outing was to the Hayloft Dinner Theater. There they saw "The Odd Couple."

# SIGNS CORRESPOND WITH TITLES

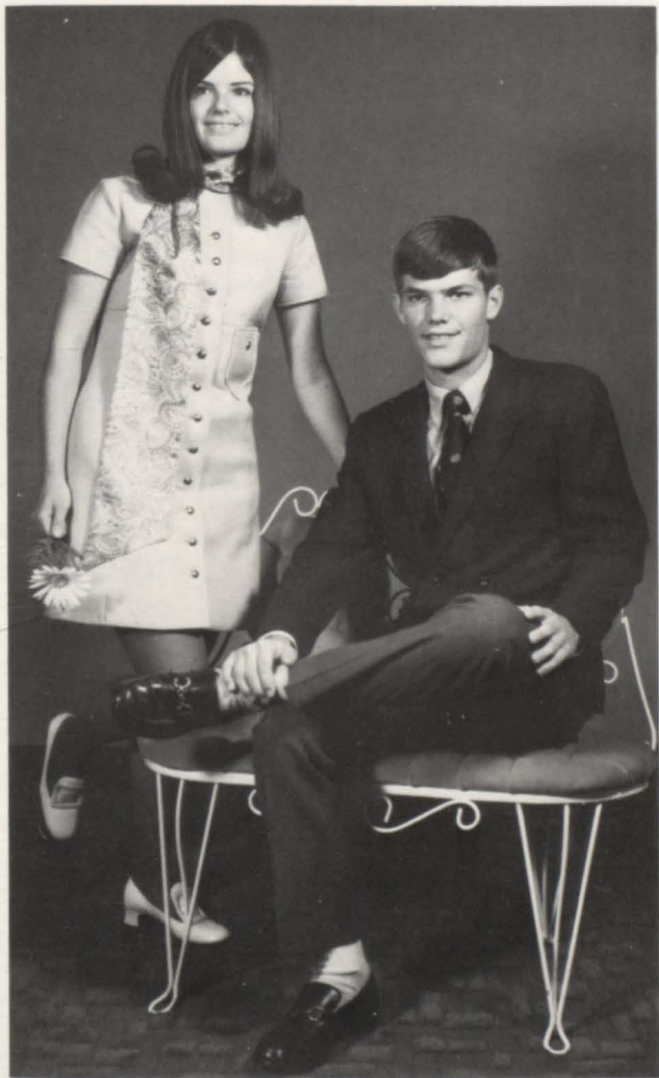

Checking the horoscopes of these twelve celebrities, the annual staff discovered that both students chosen as Most School-Spirited were born under the sign of Aquarius; Most Athletic, Gemini; and Most Likely to Succeed, Aries. However, in doing further research we found that the zodiac signs were different in the other three categories. Perhaps the zodiac doesn't govern our lives, but who knows? UPPER RIGHT, Cheerful Tommy Hargraves, Aquarius, and Melissa Holloman, a slow-to-anger Taurus, were elected Wittiest. BE-LOW, Mary Frances Browning and Pat Edwards, two seniors who were born under the sign of Aries, were chosen Most Likely to Succeed. Full of ambition, they love new ideas and tend to be pioneering and adventurous. LOWER RIGHT, A compassionate Pisces, Toni Melcher, and a jovial Capricorn, Louie Scott, were chosen as the students with the Best Personality.

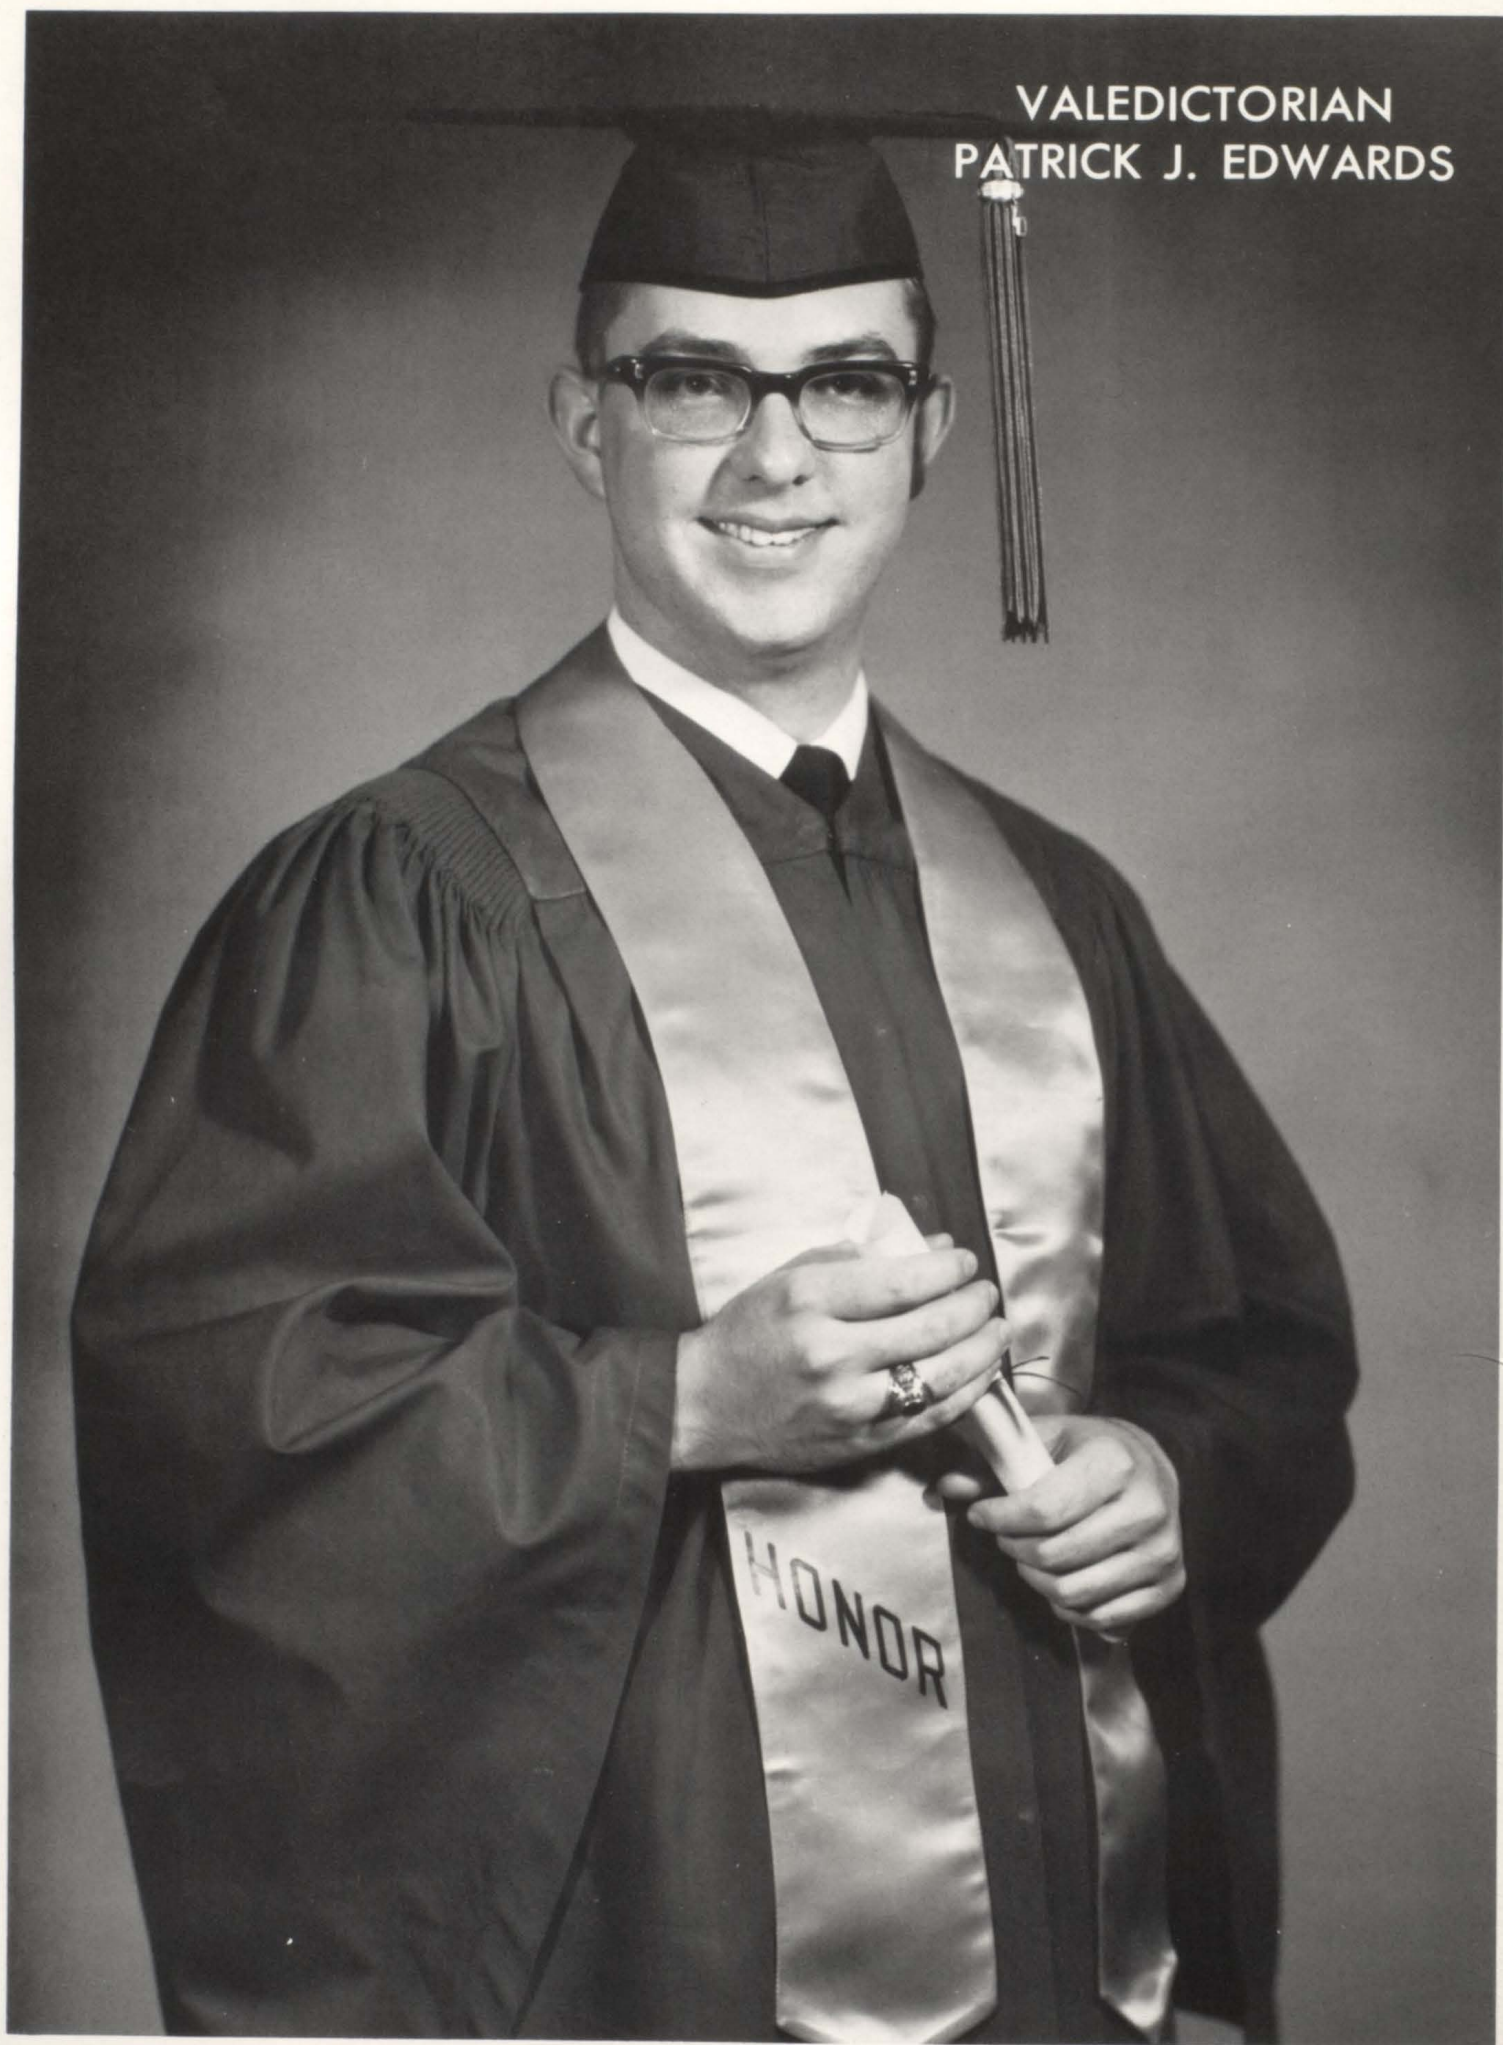

## ZODIAC DETERMINES CHARACTER TRAITS

UPPER LEFT, Because of their honesty, sincerity, and cheerfulness, Georgia Geer and Dan Davis, two members of the Aquarius clan, were elected Most School-Spirited.

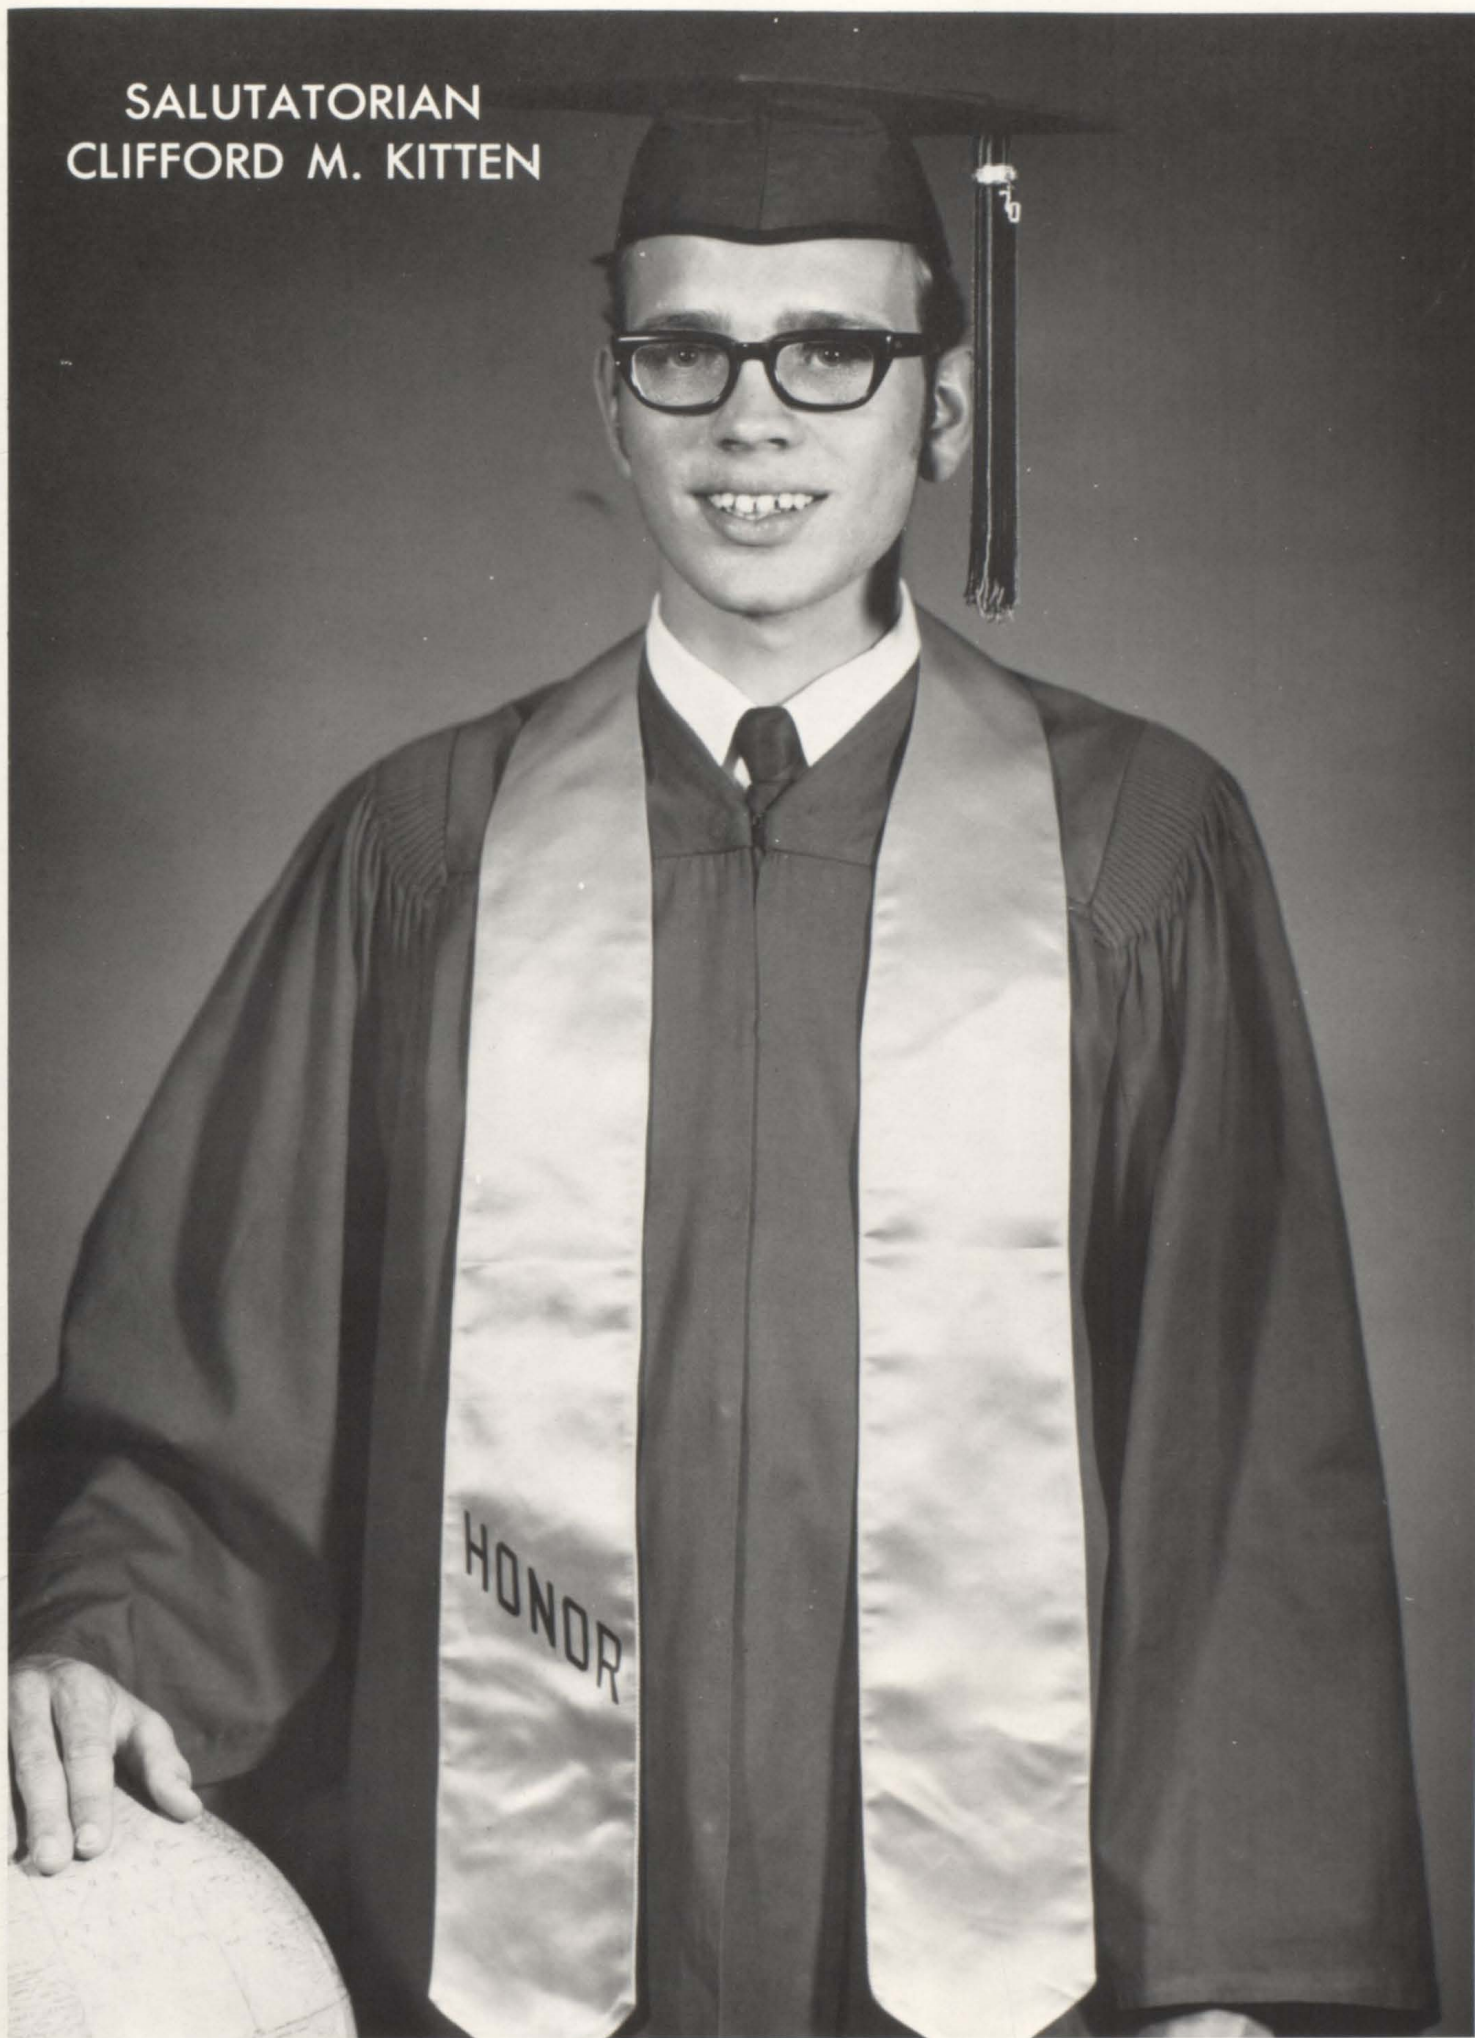

BELOW LEFT, The versatile, alert, and ambidextrous pair who were chosen Most Athletic were Marilyn Davis and Larry Moore, both governed by the sign of Gemini. BELOW RIGHT, Judy Eblen, aided by the regal bearing of Leo, and Terry Mosser, loving the limelight as do all born under Cancer, were chosen Most Attractive.

Equal parts of work and  
play make SHS seniors  
interesting people.

ABOVE, Seniors listen attentively as a program on drugs is presented at an assembly. LEFT, Barbara Brush helps to keep the records straight.

## SENIOR YEAR . . . A SIGN OF THE TIMES

Sometimes it seemed to the Seniors as if the Freshmen were constantly underfoot, but by the end of the year most of the differences and petty annoyances had been resolved. There were mixed feelings of joy and sadness as graduation day approached. Each member of the class recalled the events of the past nine months that would soon fade into dim memories, the exciting football and basketball games, the organization of the ROTC at Slaton High School, the well-groomed boys with the highly polished shoes, the too few assembly programs, the beautifully decorated banquets, and swinging dances, the good friends who would soon be separated forever, the rides up and down the drag, the tests, the term papers, and all the tedious hours of classes. All the work and cares of twelve years seemed worthwhile when coveted diplomas were handed out.

Imagine a small cabinet-size unit in your home that produces all the electricity you need. Well, such silent, efficient Gas fuel cells already exist and have proved themselves in actual operation.

They are the same in principle as those now powering our spacecraft. Research is proving that the most economical way to produce energy is to convert piped Gas at the point of use.

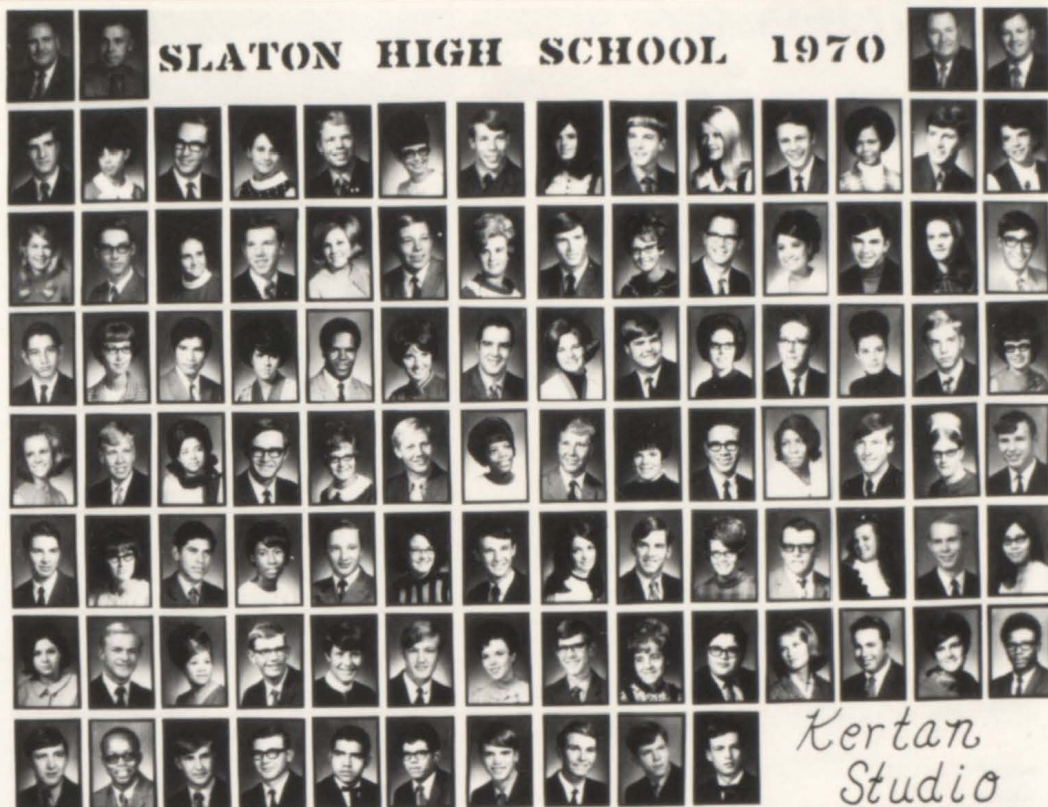

But that isn't surprising because Gas is almost pure energy.

# SHS GOVERNED BY SIGN OF THE TIGER

The governing of the SHS student body by the zodiac is proven once again by photos of everyday school activities. Each student was able to "do his own thing" in demonstrating the characteristics of his true sign - the sign of the Tiger. The true Tiger backed his fellow students in every activity, whether it was in pep rallies, ROTC, football games, or cooking in homemaking.

# STUDENTS PARTICIPATE IN VARIED ACTIVITIES

Tigers participated in every school activity, and the activities were varied and many. There were organizational activities and class projects; Western Day floats to build and Tiger's Cages to read; assemblies that gave students plenty of time to show their versatility and sport events that enabled students to express appreciation to athletes; opportunities to get to know fellow students and time to be with that one special boy. For Tigers, 1970 was a very busy year.

# 1969-70 ARE YEARS OF ACCOMPLISHMENT

On July 20, 1969, the United States made a major break-through in the field of space exploration. Apollo 11 Astronauts Neil Armstrong and Edwin Aldrin landed on the moon while Michael Collins orbited the moon waiting for the ship to dock.

The SHS Annual Staff takes this opportunity to express its appreciation for the work being done by Americans.
