Lubbock Open Best Practices

Updated March 22, 2021

Lubbock Open Best Practices are being provided for the consideration of all Lubbock businesses as they consider next steps toward re-opening during the Covid-19 pandemic.

General Health and Safety Guidelines:

The following General Health and Safety Guidelines are considered best practices for business in Lubbock. These are nothing more than best practices being share for consideration to the Lubbock business community.

- Hand sanitizer should be accessible to employees and customers. Employees (including volunteers) should use hand sanitizer or wash their hands upon entering their place of work.
- Face coverings are encouraged for all employees at all times.
- Practice 6-foot social distancing protocols throughout the business, for customers and employees, as much as possible.
- All employees should be trained on appropriate cleaning and disinfection protocols, hand hygiene, and respiratory etiquette.
- Touchless payment options should be encouraged.
- Frequently used chairs, tables, equipment, work areas, restrooms and touch points should be cleaned and sanitized often.
- Pathways for patrons' ingress and egress should be clear and unobstructed.
- Employers are encouraged to assist employees interested in getting a vaccine in doing so.
