Down to the Last Quarter: LBK Community's First to Third Quarter Review

Greetings, LBK Community Partners and Friends! Welcome to the spookiest month of the year, October. As many of you know, I am a horror movie fanatic. So, this year, starting on October 1st, I plan to watch one Horror or Halloween-themed movie per day until Halloween. It's a new tradition I'm starting in my household to get into the Halloween spirit- I'm excited! But before we get to all the spooky fun, I would like to report our data from the first to the third quarter (January -September) to you.

As we review the data, please keep in mind that we are still going through growing pains as a network, and many of our organizations have experienced significant changes this year. However, we continue to show up and serve our community. I am proud of the work we have done and continue to do, and I hope you are, too.

As we continue to grow and find our way as a network, we will face challenges and setbacks, but I am confident that our dedication and collective efforts will lead us to even greater success in the future. Thank you for your unwavering support and commitment to our community. Let's continue to work together to make a positive impact on our community and create a healthier future for all.

Sincerely,

~Aria Alexander, Public Health Program Liaison

First Quarter: Jan – March
